

# BluSeal Precision Drip Machine

## For highly controlled, precise processing of BluSeal

The BluSeal Precision Drip Machine (BPDM) by Eurotech delivers simple and precise processing to meet wire harness terminal sealing requirements of world-class automotive suppliers. The BPDM combines a precise material dispenser and a 3-axis applicator with user friendly programming for the high-volume application of BluSeal in your manufacturing environment.

### FEATURES:

#### User Operation

- › Dual feeder racks
- › Optimized machine utilization
- › Automated cycle start
- › Live animated screen tutorial for step-by-step process control

#### Programming

- › Easy user programing for precise coordinates and volume
- › Transferable programming
- › Low cost tooling/fixtures per terminal configuration

#### Material Control

- › Repeatable positioning
- › Precise needle dispensing
- › Consistent material control
